

Military Base Redevelopment

Is your community struggling with military base closure or realignment issues?

ULI's strategic advice on military base realignment planning builds on a 60-year track record of providing candid, outcome-oriented recommendations that help communities achieve long-term vitality. ULI assembles panelists who bring years of experience with military and government facilities development and who understand military and federal instructions and protocols.

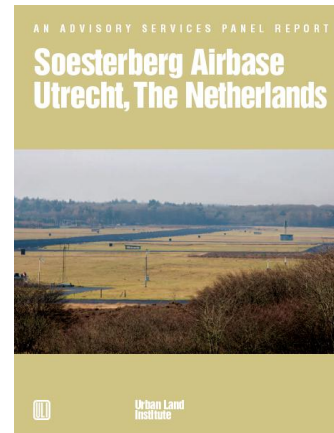

All ULI panel teams include professionals with diverse points of view—engineers, developers, planners, designers, investors, market analysts, and public officials—who work together to generate grounded, innovative solutions.

Sponsors for these panels include:

- Department of Defense
- US Armed Forces (Army, Navy, Air Force, Marines)
- Local Reuse Authorities (LRAs)
- Foreign Governments

Past panels on this topic include:

Fort Lewis, Washington
Homestead, Florida
Fort Meade, Maryland
Soesterberg, the Netherlands
Lowry Range, Colorado
Mare Island, California
Chesapeake, Virginia
Concord, California
Washington, D.C.
Key West, Florida

The panel's new land use vision for Soesterberg Airbase, in the Netherlands, reconnects adjacent communities and provides public access to nationally significant natural areas with endangered plant and animal habitat.
