

Regional Growth and Planning

Looking for best practices in regional growth management?

ULI panels bring professionals experienced with balancing economic development, land use, and infrastructure policies to create effective regional growth management. The proven ULI interdisciplinary panel format offers a unique opportunity to bring together public and private sector leaders from different backgrounds together to identify the best growth management strategies for your region. Panels also draw on ULI's leadership on regionalism and sustainable growth management.

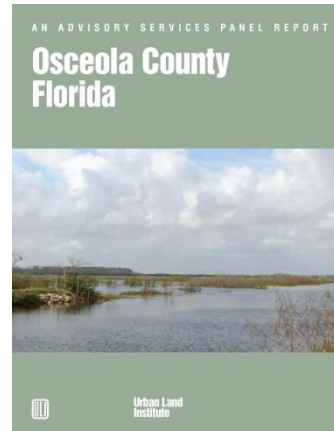

All ULI panel teams include professionals with diverse points of view—engineers, developers, planners, designers, investors, market analysts, and public officials—who work together to generate grounded, innovative solutions.

Sponsors for these panels include:

- Local and State Governments
- Non-Profit Organizations
- Business Organizations
- Major Employers

Recent panel on this topic included:

Nashville, Tennessee
Lake Norman, North Carolina
Sacramento, California
Mesa, Arizona
Ada County (Boise), Idaho
Shreveport/Bossier City, Louisiana
Osceola County, Florida
Saint Joseph, Missouri
Denver, Colorado
Virginia Beach, Virginia

A ULI panel provided a vision and framework for developing a 42.8 square mile area of Osceola County, a rapidly developing section of metro Orlando, into a model community for over 20% of the county's population in 2025.
