

Disaster Response

Need new ideas about how to respond to a disaster?

ULI Advisory Services has a history of helping communities figure out effective strategies to recover from floods, hurricanes, tornadoes, bridge collapses and man-made disasters. Panels help communities address a wide range of immediate and long-term post disaster questions and strategies.

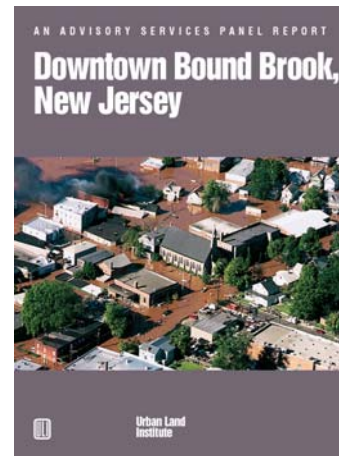

All ULI panel teams include professionals with diverse points of view—engineers, developers, planners, designers, investors, market analysts, and public officials—who work together to generate grounded, innovative solutions.

Sponsors for these panels include:

Local and State Governments
Community Development Corporations
Business Improvement Districts
Business Organizations

Recent panels on this topic include:

Bound Brook, New Jersey
New Orleans, Louisiana
Grand Forks, North Dakota
Jackson, Tennessee
Oklahoma City, Oklahoma
Lower Manhattan, New York City, New York
Bayou La Batre, Alabama

Following a hurricane-induced flood, the panel provided a strategy for Bound Brook to redevelop into a thriving, mixed use community protected by an Army Corps of Engineers flood protection system.
